Why Attend?

*Your participation will elevate consciousness worldwide. Together we can promote creative strategies and powerful action to create conscious relationships and make a tangible difference in the world.
It begins with you!*

The Case for Conscious Relationships: Families, the cornerstone of society, are at risk today because most people don't have the skills needed to create and sustain successful relationships. While people continue to seek a fulfilling life partnership, they are not clear about how to do so.

Singles and couples are afraid of relationship failure and North American statistics indicate that roughly 45 - 55% of all marriages will end in divorce.

Most first born children are born to single parents. Statistically, children from single parent homes face more challenges in life. They have more behavioral problems, are more likely to drop out of school and become involved with illegal substances. Many live at, or below the poverty level.

Blended families are also the norm nowadays and both parents and children struggle to adapt to their new paradigm - many unsuccessfully.

HOW CAN YOU HELP? Relationship education and support is greatly needed for families, children, singles and couples. Your participation in the Conscious Relationship Summit will help make a difference in people's lives, by supporting organizations that work directly with families and children, helping them create a better life.
